

Wedding Photos made EASY!

Cavender Castle Photography

Are you frustrated trying to find the right photographer for your wedding?

Well, you are not alone... Selecting a wedding photographer can be a difficult task.

First you must sift through all the complicated packages to find one that fits your needs.....and your budget. And then, most companies retain all the copyrights to your images. That means you must go through the photographer to have prints and copies made.

Not with Cavender Castle Photography! We're different! How?

First, our affordable packages are designed to be easy for you to understand.

The second big difference is that we will always provide you with copies of all your digital images along with a copyright release. This means that YOU own the digital negatives. You, your family, and friends are free to print as many copies as you wish.

And finally, our house photographers are experts in shooting photos at Cavender Castle. We already know the locations, camera angles, and poses that create the best photo memories at our venue. Don't "hope" that your outside photographer gets all the best shots. You can rely on Cavender Castle to capture the best moments from your special day!

Wedding Photos made EASY!

ENGAGEMENT PHOTOGRAPH PACKAGE: \$200

Need to have an engagement photo made?

We can help! You can have your photos shot at a variety of North Georgia locations we can recommend. Like water? How about having your engagement photo with a waterfall as a backdrop? Love the mountains? We have just the spot! Whatever your choice, you will receive over 100 digital images on CD. Just pick your favorite and send it off to the newspapers. These photos are also great if you plan on building your own wedding website.

Add a Matted 8 X 10 Photo of your favorite shot for only \$100. This makes a great keepsake on your wedding day as your guests autograph the mat. This is an item that the two of you will cherish forever!

Wedding Photos made EASY!

F.A.Q. - FREQUENTLY ASKED QUESTIONS

Q: What is a “Copyright Release”?

A: By law, photographers own the rights to the images they create. Because they own the images, many photographers require you to purchase your prints from them. At Cavender Castle, we release the rights of all images to you. This means you can take the images to any photo lab and have prints made at low cost.

Q: What is your Online Gallery?

A: Our website contains online galleries of all our weddings. This is a great way for family and friends to view photos of your wedding day.

Q: How many images will I receive?

A: For every package we guarantee a minimum number of images. In most cases, you will receive many more. After eliminating any defective images, you will receive all of the images we shoot during your wedding.

Q: What is an “Engagement Photo Shoot”?

A: We will meet with the bride and groom at a scenic site in North Georgia and shoot a variety of poses of the newly engaged couple. You will receive at least 100 images to use for newspaper announcements and any other use you desire.

Q: What is the “8X10 Matted Engagement Photo” you offer in some of your packages?

A: We will print your favorite image from your engagement photo shoot into an 8X10 photograph. We will then have the photo matted so your guests can autograph the mat and wish you well. This makes a great keepsake of your wedding day!

Wedding Photos made EASY!

Q: What is “Photo color correction and re-touching”?

A: With our higher cost packages we will take 50 of your best images and apply software to adjust color and make minor corrections to your images. For example, we can eliminate blemishes and shiny skin from your images. With the lower cost packages you can do this yourself using digital software products such as Photoshop.

Q: What is a “Slideshow DVD”?

A: We will take your best photos and create a custom slideshow set to music to tell the story of your entire wedding day!

Q: What do you mean by “Professional Prints”?

A: You can have prints made at most drugstores and national chains such as Wal-Mart. And that is fine for most photos. But for your special wedding photos, think about using a photo lab that specializes in wedding prints. They have access to special papers and printing processes that are not available at your corner photo lab. For some of our packages we will make your life easier by working with our preferred photo labs to print photos for you.

Q: Are you available to take photos at other locations and venues?

A: Yes, Cavender Castle Photography is available for weddings at other locations and venues throughout the Southeast.
